

## Introduction for Fran Berman, MBA

Anyone in business today knows that we live in a fast paced, high tech world, and chances are that the pace isn't going to slow down. It's for that very reason that it's vital for each one of us to \_\_\_\_\_ (topic or by-line) if we're going to be successful.

Our guest speaker today has done just that. She has demonstrated her ability to adjust and adapt in our ever-changing world. She has held successful careers in education, the travel industry, and high tech, with companies like American Express, National Car Rental, Tandy, and AST Computer where she managed multi-million dollar accounts and strategic business projects.

In 1995, she successfully transitioned from the corporate world to the entrepreneurial world with her own speaking and training business. She is here today/tonight from Laguna Hills, California, to share her experience, knowledge, and expertise on \_\_\_\_\_ (topic).

Please join me in giving a warm \_\_\_\_\_ (name of organization) welcome to ... **Fran Berman.**
